

# HT EVENT SPACES

# INTRODUCTION

Human Technopole is the Italian Research Institute for Life Sciences. Our mission is to promote human's health and well-being, spreading awareness among citizens that scientific progress is a global public good.

Our spaces are open to visitors, families and members of the local community. Events organised on Human Technopole premises may be of scientific and/or educational nature or aimed at the wide range of stakeholders of the institute.

# PANORAMIC TERRACE

Capacity with Covid restrictions:  
**60 pax**

Capacity without Covid restrictions:  
**80 pax**

Technical equipment available:

- Electricity panel

# COVERED PIAZZA

The image is a high-angle, blue-tinted photograph of a modern architectural courtyard. The structure is characterized by a complex, curved, and layered design, with multiple levels and walkways. A central square area is visible, surrounded by the building's structure. The image is overlaid with white geometric lines, including a large diagonal line and several intersecting lines forming a grid-like pattern. A semi-transparent blue rectangle is also present, covering the central part of the image. The text "COVERED PIAZZA" is written in white, uppercase letters in the top left corner.

Capacity with Covid restrictions:  
**100 pax**

---

Capacity without Covid restrictions:  
**200 pax**

---

Technical equipment available:

- Electricity sockets
- 3 monitors

# MEZZANINE

## CONFERENCE ROOM
