

4-DAYS FULL IMMERSION TRAINING ON TECHNOLOGY TRANSFER IN LIFE SCIENCES

10-13 October 2022
Human Technopole, Milan (IT)

SPEAKERS

- Riccardo Pietrabissa, Rector - IUSS Pavia
- Laura Spinardi, Head of TTO - Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico
- Andrea Piccaluga, Director of the Institute of Management - Scuola Superiore Sant'Anna of Pisa
- Massimiliano Granieri, Professor of Comparative Private Law - Università di Brescia
- Luca Falciola, Manager - Scibilis Consulting Services, Bruxelles
- Fabio Terragni, Human Technopole
- Giulio Superti-Furga, Scientific Director, Center for Molecular Medicine - Austrian Academy of Science (CeMM) and HT Scientific Committee Member
- HT Board Members and scientists

PROGRAMME

DAY 1 - **Monday 10 October 2022**

14.00 - 18.00 Innovation and the “third mission” of public research organisations and biomedical research

Coordinator: Riccardo Pietrabissa, Rector - IUSS Pavia

DAY 2 - **Tuesday 11 October 2022**

9.00 - 13.00 Protecting results with Intellectual Property Rights

Coordinator: Laura Spinardi, Head of TTO - Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico

14.00 - 18.00 Valorisation of results through the creation of spin-off companies

Coordinator: Andrea Piccaluga, Director of the Institute of Management - Scuola Superiore Sant'Anna of Pisa

DAY 3 - **Wednesday 12 October 2022**

9.00 - 13.00 Exploitation of results through agreements: development, licensing, proof-of-concept

Coordinator: Massimiliano Granieri, Professor of Comparative Private Law - Università di Brescia

14.00 - 18.00 The use of patent information for research purposes and exploitation of results

Coordinator: Luca Falciola, Scibilis Consulting Services (Bruxelles, Belgium)

DAY 4 - **Thursday 13 October 2022**

9.00 - 13.00 Presentation of Human Technopole. How HT is supporting Technology Transfer in Italy

Coordinator: Fabio Terragni - with the participation of Giulio Superti-Furga, Scientific Director, Center for Molecular Medicine - Austrian Academy of Science (CeMM) and HT Scientific Committee Member, Piero Carninci, Head of Genomics Research Centre, Human Technopole (TBC), and HT scientists.
