

# HT EVENT SPACES

# INTRODUCTION

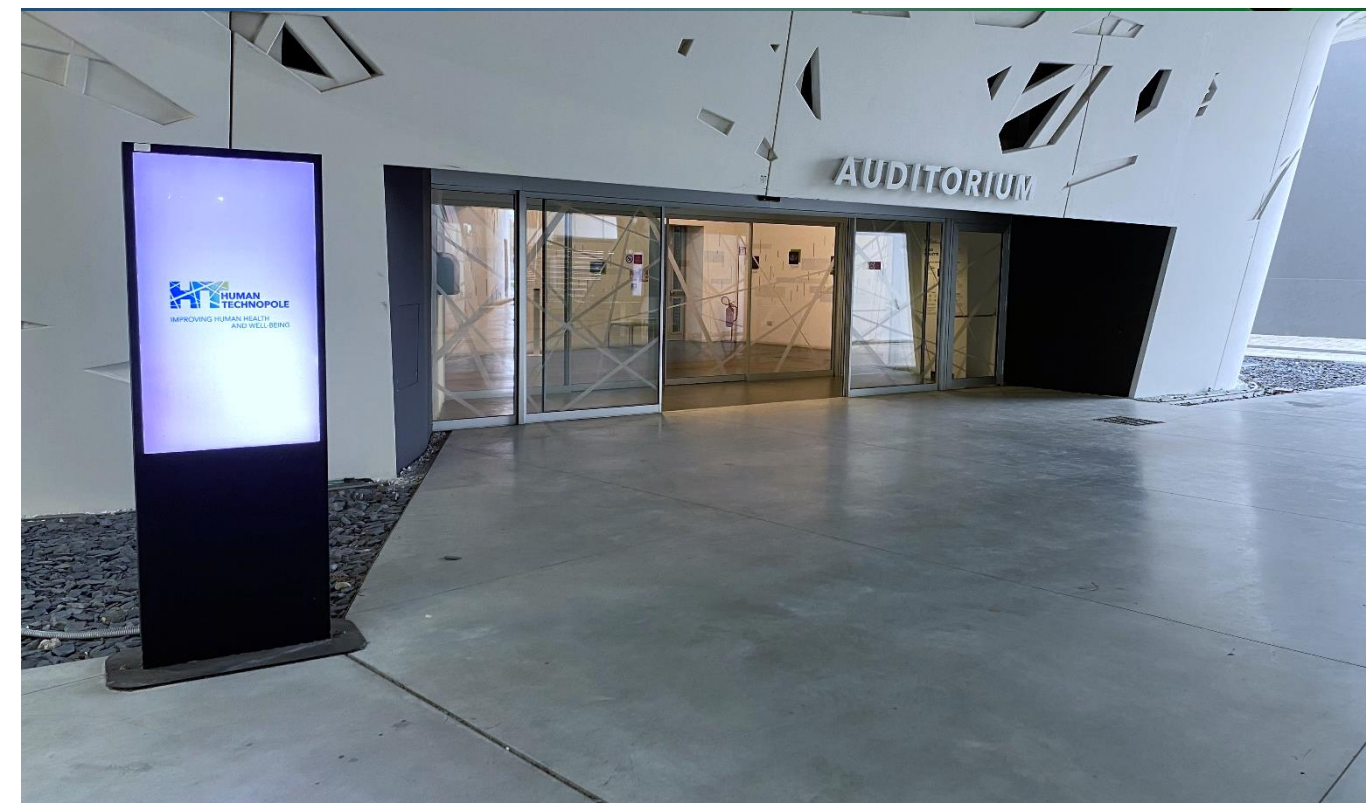

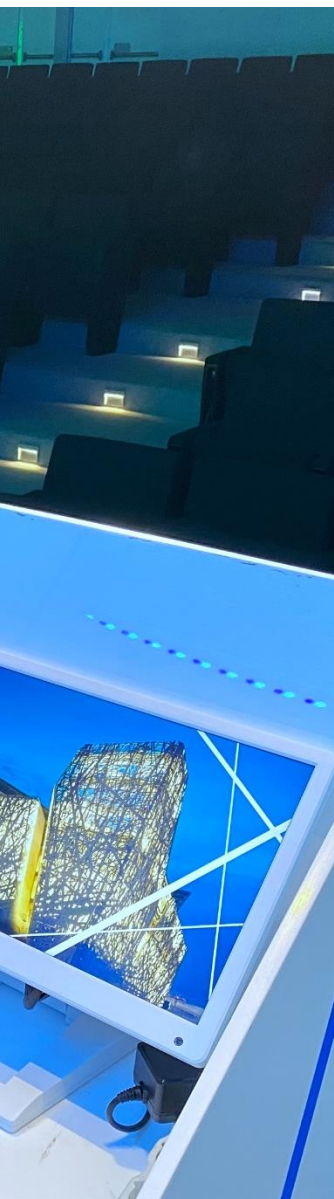

Human Technopole is the Italian Research Institute for Life Sciences.  
Our mission is to promote human's health and well-being, spreading awareness among citizens that scientific progress is a global public good.

Our spaces are open to visitors, families and members of the local community.  
Events organised on Human Technopole premises may be of scientific and/or educational nature or aimed at the wide range of stakeholders of the institute.
