

**HUMAN TECHNOPOLE
NATIONAL FACILITY FOR GENOME ENGINEERING
AND DISEASE MODELLING
CALL FOR ACCESS
24-GEDM-PILOT
Amendment II**

The present amendment is aimed at revising the eligibility and admissibility process described in paragraph 4 and the evaluation of application process described in paragraph 6 of the Call for Access.

The sentence “Applications must be written in English and must be complete (i.e., consist of all the requested elements and information). Incomplete applications will be considered not eligible and will be rejected at the administrative review stage” is revised as follows:

Applications must be written in English and must be complete (i.e., consist of all the requested elements and information) and respect all administrative and technical requirements (e.g., proposal or CV format, declarations, technical requirements of the services, sample requirements). Incomplete applications or applications that do not meet the requirements will be considered not admissible and will be rejected at the administrative review stage.

The sentence “The NF User Access Office first performs an administrative review of the application to ensure that all the requested components have been provided, and that all eligibility criteria have been met” is revised as follows:

The NF User Access Office first performs an administrative review of the application to ensure that all the requested components have been provided, and that all eligibility criteria have been met. Incomplete applications or applications that do not meet the requirements will be considered not admissible and will be rejected at the administrative review stage.
